Books/Chapters

Project Scheduling Problem in der Produktionsplanung”, In: T. Claus, F. Hermann, M.
Manitz (eds.): Produktionsplanung und -steuerung – Forschungsansätze, Methoden und An-

taillierte Einführung in Modelle und Verfahren”. Springer Berlin Heidelberg.

Project Scheduling Problem in der Produktionsplanung”, In: T. Claus, F. Hermann, M.

leagues”, In: M. Wright (ed.): Operational Research Applied to Sports. Palgrave Macmillan,
2015, pp 201-223.

1. Dirk Briskorn, Andreas Drexl, Sönke Hartmann (2007), “Inventory based Dispatching of
Automated Guided Vehicles on Container Terminals”, In: K.H. Kim, H.-O. Günther (eds.),

Refereed Journals

85. Nils Boysen, Dirk Briskorn, David Füßler, Konrad Stephan, “Put it in the bag: Order fulfill-
ment with a pocket sorter system”, Naval Research Logistics, to appear.

84. Dirk Briskorn, Gerhard J. Woeginger (2023), “Hardness of flow time minimization in a cross-
dock with a single door and asymmetric handover relations”, Operations Research Letters,

83. Nils Boysen, Dirk Briskorn, Stefan Schwerdfeger (2023), “How to charge while drive: Schedul-
ing point-to-point deliveries of an electric vehicle under overhead wiring”, Journal of Schedul-

82. Dirk Briskorn, Lena Rotfuß, Marcel Helmdach (2023), “Modelling and optimizing the capac-
ity and production network planning in plastics processing factories”, International Journal
of Production Research, Vol. 61, No. 7, pp 2105-2128.
